THE SOVIET JOURNAL OF NONDESTRUCTIVE TESTING

Volume 12, Numbers 1-6, 1976

(A translation of Defektoskopiya)

Volume 12, Number 1 January-February, 1976

| | Engl. | Russ. |
|---|---|---|
| ULTRASONIC METHODS | | |
| Feasibility of More Accurate Thickness Measurements by the Resonance Method — S. A. Sherashov and I. N. Ermolov | 1 | 7 |
| Acoustic Amplitude Method of Inspecting Bonding in Laminated Structures — Yu. V. Lange | 5 | 11 |
| Estimating the Efficiency of Ultrasonic Amplitude Inspection of Coarse-Grained Materials — V. S. Grebennik | 12 | 20 |
| Ultrasonic Inspection of Large-Diameter Pipe and Stock — M. F. Krakovyak and I. L. Grebennik | 18 | 27 |
| Time-Interval Meter for Digital-Display Pulse-Echo Thickness Gauges — M. V. Korolev and V. V. Aristov | 21 | 30 |
| Reflection of a Transverse Wave from a Cylindrical Defect — G. A. Budenkov and L. I. Khakimova | 25 | 34 |
| Signal-Treatment Methods during Aircraft-Engine Inspection Based on Vibroacoustic Noises — V. V. Izokh and V. I. Mikulovich | 29 | 39 |
| RADIATION METHODS | | |
| The Use of Thoron for Checking the Hermetic Sealing of Film Products — Yu. A. Bogodarov, S. V. Andreev, I. P. Tutov, and V. M. Sapozhnikov | 35 | 48 |
| The Design of Automatic Control Systems in Radiation Flaw Detection — V. I. Goncharov, V. I. Gorbunov, and B. N. Epifantsev | 38 | 52 |
| Efficient Use of Radiation Field in Mass Testing of Hollow Cylindrical Parts — L. I. Levenberg | 43 | 58 |
| An Improved PMB-6 Betatron — V. L. Chakhlov, D. A. Boiko, V. V. Romanov, and M. M. Shtein | 46 | 62 |
| ELECTROMAGNETIC METHODS | | |
| Inspecting the Heat-Treatment Quality of High-Frequency Induction-Hardened Parts — M. N. Mikheev, É. S. Gorkunov, and T. I. Vostrotina | 49 | 66 |
| Impedance-Type Ferromagnetic Probe Sensors for Magnetic Inspection — P. A. Khalileev | 53 | 70 |
| Determining the Mechanical Properties of Thick Sheet 17G1S Steel — G. V. Grigoryan and G. N. Mul'ko | 59 | 77 |
| Magnetic Particle Inspection of Aviation Engine Vanes — A. G. Aleksandrov and S. G. Shelikhov | 62 | 81 |
| Effect of Interference Factors on the Readings of Electromagnetic Instruments — Yu. K. Grigulis, M. S. Kachan, and I. V. Tsepke | 66 | 85 |
| Use of Pole Shoes on Attachable Electromagnets of Ferroprobe Coercimeters — V. P. Tabachnik, L. A. Fridman, and G. S. Chernova | 72 | 92 |

Determination of Intergranular Defectiveness with the Aid of Inductive Instruments — V. N. Prikhod'ko and L. G. Kirillova . . . . . 77 98
Measuring Magnetic Fields in Flaw-Detector Magnetizing Units that Have Semiconductor Rectifiers — V. K. Yurenkov, S. M. Rozhdestvenskii, and M. P. Nazarov. . . . . 82 104
Simulating the Operating Conditions of a Through-Type Eddy-Current Transducer when Inspecting Ferromagnetic Rods — N. P. Rtishcheva and V. V. Sukhorukov . . . . . 86 109
Influence of Part Geometry on the Results of Their Inspection by Eddy-Current Transducers — V. P. Kurozaev, Yu. I. Steblev, and V. E. Shaternikov . . . . . 91 115

BRIEF COMMUNICATIONS
Detection of Dissimilarly Oriented Defects in Ultrasonic Pipe Inspection — K. V. Zakhvatikhata, V. I. Roitman, and R. M. Brusentsova . . . . . 98 124
Crack Monitoring in Electrically Welded Tubes — E. V. Morozov, A. P. Marulin, E. A. Baranov, V. E. Shcherbinin, and P. V. Vorob'ev . . . . . 101 126
A Ferroprobe Flaw Detector with RF Pulse Excitation — B. N. Domashevskii, V. I. Kolesnikov, and N. N. Esin. . . . . 104 128
Ultrasonic Structure Monitoring for Aluminum-Alloy Components — A. A. Botaki, A. V. Salaev, and A. V. Sharko . . . . . 106 130
A Reliability Test System for Surface-Mounting Transducers — P. D. Shnyrev, V. A. Mochalov, and Yu. P. Stupnikov. . . . . 108 132
Electroluminescent Screens in Defect Imaging — N. A. Bekeshko and A. N. Leporskii . . . . . 110 133
Ultrasonic Testing of Ferrites — S. A. Filimonov. . . . . 112 135
An Electrically Steerable Ultrasonic Detector — E. L. Piletskas and V. I. Domarkas . . . . . 114 136
The BUR-1M Automatic Ultrasonic Equipment for Monitoring Drill and Casing Tubes — G. I. Shalashov and V. I. Beloborodov. . . . . 116 138
The IK-10R1 Radiometer — V. A. Strokov, A. A. Ketkovich, and A. B. Upadyshev . . . . . 118 139
A Method of Joining a Contact Tip to a Transducer — Yu. V. Lange, L. N. Sergeicheva, M. K. Rozhdestvenskaya, A. P. Petrova, P. D. Shnyrev, and S. A. Treskin . . . . . 120 141
Inclined Probes Employing Test Pulses — B. A. Petrov and V. K. Ioch . . . . . 121 142

Volume 12, Number 2 March-April, 1976

Improve Quality-Control Methods . . . . . 123 7

ULTRASONIC METHODS
Monitoring the Quality of Contact Welds — A. Z. Raikhman and Yu. M. Kudryashov. . . . . 125 9
Analysis of the Mirror-Shadow Method of Ultrasonic Flaw Detection — I. N. Ermolov and L. S. Zenkova. . . . . 131 16
Determination of the Allowable Frequency Spread of Ultrasonic Oscillations in Flaw Detection — A. K. Gurvich, L. I. Kuz'mina, A. E. Vevrik, and A. S. Kukli . . . . . 136 23
Application of a Combination Dual-Mode Transducer and Liquid Acoustic Line for the Testing of Bulky Objects with an Irregular Surface — V. F. Kiriyakov . . . . . 145 34
Ultrasonic Defectoscopy for Testing Annular Welds — V. M. Lantukh and N. P. Sipakov. . . . . 150 41
Wide-Range Piezoelectric Instrument Transducers with a Tunable Working Frequency — R.-I. Yu. Kazhis and P.-B. P. Milyus . . . . . 154 46
Experimental Determination of Electric Equivalent-Circuit Parameters of a Loaded Piezoelectric Transducer — O. B. Gusev. . . . . 159 54
Excitation and Detection of Ultrasound in Magnetically Polarized Nonferromagnetic Metals by Electromagnetic Fields. I. The Dispersion Relation — V. A. Komarov and V. G. Kuleev. . . . . 162 58

Excitation and Detection of Ultrasound in Magnetically Polarized Nonferromagnetic Metals by Electromagnetic Fields. II. Calculation of Elastic Displacements in the Metal – V. A. Komarov and V. G. Kuleev . . . . . 169 67

ELECTROMAGNETIC METHODS

Complex of Devices for the Automatic Nondestructive Testing of Tube Quality in the Production Line of the 140 Rolling Mill – V. V. Klyuev, V. P. Kurozaev, L. A. Khvatov, Yu. V. Petrov, B. M. Pyatigorskii, G. A. Zhukova, and V. V. Shikolev . . . . . 176 77

Effect of the Boundaries of the Specimen on the Defect Field – V. E. Shcherbinin and A. I. Pashagin . . . . . 182 85

Polarization of Cracks When Magnetized in a Longitudinal Alternating Field – B. N. Domashevskii and A. I. Geiser . . . . . 186 89

Calculating the Resistance Introduced by Cracks in an Applied Transducer – V. A. Sandovskii . . . . . 190 95

Optimization Problem in Ferromagnetic-Probe Fault Detection – G. A. Burtsev and É. É. Fedorishcheva . . . . . 196 102

Nondestructive Testing in the Production of Die-Cast Aluminum Parts – J. Halamicek . . . . . 204 112

RADIATION METHODS

Effects of Averaging within the Field of View of the Detector on the Choice of Recording Equipment – V. I. Gorbunov, V. M. Gorbunov, F. M. Zav'yalkin, and M. S. Kvasnitsa . . . . . 208 117

Spectrometric Method of Recording Gamma Radiation in a Multichannel Defectoscope – N. P. Valuev, V. K. Latyshev, and V. V. Lyndin . . . . . 216 127

BRIEF COMMUNICATIONS

Calculation of the Diameter of the Field Set Up by Electron Bremsstrahlung – V. P. Kovalev and V. I. Isaev . . . . . 221 134

New Resonant Piezoelectric Transducer Construction – P. D. Shnyrev . . . . . 222 135

Reliability of the Ultrasonic Defectometry of Welds – V. G. Shcherbinskii . . . . . 224 137

Internal Loss and the Electrical Impedance of a Piezoelectric Transducer – V. I. Ivanov . . . . . 226 139

Contact Recording of Flaw Patterns in Magnetic Powder Flaw Detection – A. G. Aleksandrov and Yu. A. Glazkov . . . . . 228 139

Terminology – Yu. A. Glazkov . . . . . 229 142

Second All-Union Seminar on Acoustic Emission – Yu. B. Drobot . . . . . 230 143

NEW BOOKS

V. I. Domarkas and R.-I. Yu. Kazhis. Piezoelectric Monitoring Transducers . . . . . 231 144

Volume 12, Number 3 May-June, 1976

ELECTROMAGNETIC METHODS

An Eddy-Current Tester for Tubes and Rods – L. K. Komogortsev, A. P. Kostenko, V. G. Mazaev, V. K. Popov, and I. O. Shlepnev . . . . . 233 7

Some Special Characteristics of the Operation of an Electromagnetic Converter Forming Part of an Unbalanced Bridge – V. S. Fastritskii and P. Sh. Fishkin . . . . . 238 14

Eddy-Current Transducer for Measuring Thickness of Lacquer Colored Coatings on a Magnetic Base – V. A. Sandovskii . . . . . 244 21

Theory and Design of Magnetizers for Magnetically Inspecting the Structure and Mechanical Properties of Massive and Elongated Parts – G. S. Tomilov . . . . . 254 33

Determination of the Trasnverse Magnetostatic Field of a Cylinder with an Eccentric Cylindrical Inclusion – B. I. Kolodii and A. Ya. Teterko ..... 263 44
Effect of Compensation Conditions on the Indications of Fault Detector Type VDG-3 for Variations of the Transducer-Product Clearance – B. I. Volkov. ..... 269 51
Using Scattered Gamma Radiation for Detecting Subsurface Defects in Metal – G. A. Arkhipov, E. G. Golukov, B. L. Dvinyaninov, P. P. Zol'nikov, Yu. A. Kovyazin, and K. A. Sukhanova ..... 272 56
Characteristics of Radiostereoscopic Image Formation – V. F. Petushenko and D. I. Sviryakin ..... 275 60
Calculation of $\gamma$-Ray Backscattering from an Interface – I. Ya. Serebrennikov. ..... 278 63
Design of Industrial $\gamma$-Ray and Betatron Flaw-Detection Laboratories – I. R. Kuznetsova and S. A. Fomin ..... 283 69

THERMAL METHODS
Thermal Quality Control on Multilayer Constructions – Yu. A. Popov, A. E. Karpel'son, V. A. Strokov, A. A. Ketkovich, N. G. Kurbatov, and A. N. Fataimukhin ..... 289 76
Conditions for the Rational Use of Steady Heating in Thermal Defectoscopy of Film Coatings – Yu. L. Stepanov. ..... 293 81

ULTRASONIC METHODS
New Aperiodic Ultrasonic Piezoelectric Transducers – M. V. Korolev. ..... 296 86
Using the Kinetic Concept of Fracture for Calculating the Acoustic Emission Intensity – V. E. Vainberg, A. Sh. Kantor, and R. G. Lupashku ..... 299 89
Correcting the Frequency Response of an Acoustic Channel by Means of Electronic Circuits – A. Yu. Keskyula, A. P. Stipura, and A. A. Martyushenko. ..... 304 96

BRIEF COMMUNICATIONS
Capillary Methods of Detecting Leaks in the Tubing Lines of Liquid Systems Yu. A. Glazkov and É. P. Bruevich ..... 312 106
The Problem of the Magnetic Fields Topography of Local Defects – A. M. Gordon. .... 315 109
Revealing Surface Defects on Cast Steel Parts with the Aid of Type "LZh" Fluorescent Liquids – L. Ya. Malkes, T. V. Ershova, V. M. Usenko, V. E. Moskalenko, A. D. Nikolaichuk, and L. I. Sukiasova ..... 318 112
Relationship between Magnetic Saturation Flux and Tensile Strength of Platinite – R. A. Vafin. ..... 320 114
Relationship between Depth of Intercrystallite Corrosion and Specific Electrical Conductivity in Aluminum Alloy D16 – N. N. Naumov, N. M. Zueva, and A. A. Krastilevskii ..... 322 116
Ultrasonic Inspection of Drill Pipe – G. M. Gul'yants, G. K. Dzheriki, and A. A. Petrov ..... 324 118
Detection of Concealed Defects by Holographic Interferometry – G. P. Akulov and M. F. Pashkevich ..... 326 120
Inspection of Copper Conductors inside Reinforced-Concrete Structures – O. V. Filonin, L. I. Lagutskaya, V. E. Golovanov, and Yu. V. Skiba. ..... 329 123
The ITV-1 Eddy-Current Temperature Measurer – V. M. Artemenok, V. M. Karpov, and E. A. Sokolov ..... 330 124
Ultrasonic Check on the Melting Point of Solder When Soldering Small Parts – L. D. Kruglov ..... 332 126
Ultrasonic Testing of the Strength Characteristics of Steel 45 – L. Ya. Levitan, A. N. Fedorchenko, and A. V. Sharko. ..... 335 129
An Integrated $\gamma$-Ray and Betatron Flaw-Detection System – A. V. Pokrovskii, V. F. Voronovskii, and E. V. Artemov ..... 337 131
Flaw Detection with Medium-Energy Protons – V. I. Gorbunov, V. P. Ivakin, B. A. Kononov, and A. L. Lukin. ..... 338 132
An Apparatus for Examining Temperature Distributions in Cathodes – Yu. L. Stepanov and V. L. Federov ..... 339 133

An Improved Version of the ST-21I Thickness Gauge – N. S. Kadyrov ..... 341 136
Scanner Heads with a Variable Angle of Incidence for the Ultrasonic Beam – A. G. Shastin. ..... 343 137
Ultrasonic Inspection of Steel Tape – S. A. Filimonov, N. A. Glukhov, V. V. Pakhomov, and G. V. Balitskii ..... 346 140

INFORMATION
The 2nd All-Union Interuniversity Scientific and Technical Conference on Electromagnetic Methods of Inspecting Quality – V. S. Fastritskii, P. Sh. Fishkin, I. I. Kifer, A. D. Pokrovskii, and V. V. Sukhorukov ..... 348 143
3rd All-Union Conference on Ultrasonic Spectroscopy. ..... 350 144

Volume 12, Number 4 July-August, 1976

ELECTROMAGNETIC METHODS
A Magnetizing Flaw-Detection System for the Inspection of Underground Pipelines – P. A. Grigor'ev, L. A. Fridman, and P. A. Khalileev ..... 351 7
An Electromagnetic Device for Quality Inspection of Heat-Treated Steel Products – S. D. Anisimov and S. S. Svetashev ..... 360 18
A Magnetic Induction Defectoscope with Adjustment – V. A. Sandovskii and N. M. Rodigin 366 24
Performance Analysis of an Eddy-Current Defectoscope with a Series Tank Circuit in the Input Stage – V. A. Burtseva and V. V. Vlasov ..... 370 29

THERMAL AND MISCELLANEOUS METHODS
A Portable Temperature-Measuring Instrument for Thermal Monitoring – N. A. Bekeshko, A. N. Leporskii, and N. S. Arsent'ev ..... 374 34
Use of Near-Surface Thermoelectric Receivers for Thermal Monitoring of Laminated Structures – Yu. V. Gavinskii, B. I. Vorozhtsov, and Yu. V. Nemirov ..... 380 40
Method of Quantitatively Assessing the Blistered Structure of Vitreous Enamel Coatings – V. E. Gorbatenko, A. A. Romanenko, V. M. Gladush, and L. V. Markina ..... 386 47

ULTRASONIC METHODS
Investigation of the Frontal Resolution of an Echo-Type Flaw Detector – I. N. Ermolov and D. F. Karlov ..... 393 57
Determining the Dynamic Moduli of Elasticity of a Thin Wire by the Method of Traveling Normal Waves – A. V. Veremeenko and I. L. Ignatinskii ..... 399 65
Measuring the Sensitivity of Piezoelectric Transducers – A. F. Mel'kanovich and L. B. Liventsova ..... 406 73
Fields Radiated into a Liquid by the Normal Modes of a Plate Driven by a Pulsed Ultrasonic Beam – Yu. B. Sviridov ..... 413 83
Application of a Piezoelectric Transducer with an Oblique-Bottom Immersion Chamber – V. F. Kiriyakov ..... 422 96
Enhancement of Ultrasonic Flaw-Detection Sensitivity by Means of Focusing Systems. I. Theory – I. N. Kanevskii and M. M. Nisnevich ..... 428 104
Enhancement of Ultrasonic Flaw-Detection Sensitivity by Means of Focusing Systems. II. Experiment – I. N. Kanevskii and M. M. Nisnevich ..... 435 112
A Method of Determining the Hardness of Steel – L. Ya. Levitan, L. M. Safrin, A. N. Fedorchenko, and A. V. Sharko ..... 439 116

BRIEF COMMUNICATIONS
2-mm-Band Resonant Radio Flaw Detector for Low-Temperature Investigations – A. A. Galkin, G. G. Grinev, V. I. Kurochkin, and E. D. Nemchenko ..... 443 121
Ultrasonic Probles in the AP-10KI Series – M. B. Burd and V. V. Sazhin ..... 446 124

An Acoustic Signalling Unit for an Ultrasonic Echo-Type Flaw Detector — A. K. Gurvich, G. A. Krug, and V. A. Yablokov ..... 448 126
An Instrument for Measuring the Water Content of Tobacco — G. M. Tsuladze, N. G. Kanteladze, L. A. Chelishvili, and D. A. Sulamanidze ..... 450 128
The Bubble Structure of Vitreous Enamel and Flaw Forecasting — V. E. Gorbatenko, A. A. Romanenko, V. M. Gladush, and L. V. Markina ..... 451 129
X-Ray Determination of the Thickness of the Deformed Surface Layer in Ferrogarnet Crystals — S. Sh. Gendelev and Yu. G. Saksonov ..... 453 131
Contactless Electrogasdynamics Method of Acoustic Flaw Detection — V. E. Mikhailenko ..... 454 132
Quasistationary Temperature Distribution in Harmonic Thermal-Flux Monitoring — V. P. Vavilov ..... 457 135
A Method of Calibrating Test Leaks — V. F. Rozal' ..... 459 137
Microwave Flaw Detection in Ferrites — K. I. Krylov, N. M. Funtov, A. I. Barbashev, and V. G. Romanov ..... 460 139

BOOK REVIEWS
N. M. Naumov and P. G. Miklyaev. Resistometric Nondestructive Testing of Deformable Aluminum Alloys — Reviewed by B. A. Kadyshkin, I. M. Antselovich, V. M. Lifshits, and N. Akhmedzhanov ..... 463 143

Volume 12, Number 5 September-October, 1976

ULTRASONIC METHODS
Theory of Operation of Piezoelectric Probes in Ultrasonic Defectoscopes 1. Fundamental Equations of the Electroacoustic Channel in an Ultrasonic Defectoscope — I. N. Ermolov and V. I. Ryzhov-Nikonov ..... 465 7
Evaluating the Quality of a Cold-Worked Surface — V. M. Bobrenko and Ya. A. Rublev ..... 474 18
Dissipation of Ultrasonic Oscillations at the Boundary of the Layers of a Bimental Made by Explosive Welding. I — N. V. Vinogradov, Yu. B. Sviridov, and N. V. Khimchenko .. 478 22
Noncontact Thickness Testing by Means of Ultrasonic and Electromagnetic Waves — S. A. Filimonov ..... 483 29
Using the Acoustic-Emission Method to Check the Strength of Fiberglass Rings — A. Yu. Detkov ..... 488 34
Effect of Amplitude-Response Variations on the Nonlinear Properties of Acoustic-Emission Systems — V. V. Romanov, S. G. Trubnikova, and V. A. Konstantinov ..... 493 40

RADIATION METHODS
Statistical Analysis of Radioscopic Inspection Data — V. P. Lopaev, G. V. Kuchumov, and B. I. Leonov ..... 497 45
Luminescent Converters in Radiation Flaw Detection — V. I. Gorbunov, D. I. Sviryakin, Yu. A. Egorenko, Yu. A. Moskalev, A. Ya. Gurevich, and G. E. Povelitsyn ..... 500 48
Exoemission Defectoscopy of the Initial Stages of Fatigue Fracture — V. I. Alimov ..... 504 54

THERMAL METHODS
Detection of Layer Separation (Peeling) in Multilayered Objects by a Thermal Method Using a Thermal Visualizer — A. E. Karpel'son, Yu. A. Popov, Yu. V. Kolodochkin, G. S. Khulap, A. A. Ketkovich, and V. A. Strokov ..... 508 59
Calculation of Certain Temperature Drop Parameters when Testing with a Constant Thermal Flux — V. P. Vavilov ..... 513 65

ELECTROMAGNETIC METHODS
The MRD-72 Magnetoferroprobe Rail Defectoscope — L. A. Khvatov, E. Ya. Simonova, A. A. Dmitriev, and Yu. S. Kalinin ..... 516 68

Experimental Study of the Image of a Local Magnetic Field Recorded on Magnetic Tape Without Bias – V. E. Shcherbinin and S. P. Mikhailov ..... 520 73
Image of a Local Field on Magnetic Tape Obtained by Recording without Bias – V. E. Shcherbinin and S. P. Mikhailov ..... 528 82
An Electromagnetic Transducer with a Frequency Output Signal for the Inspection of the Electromagnetic Properties of Ferromagnetic Materials – V. I. Chaplygin and V. F. Bezotosnyi ..... 535 91
Effect of the Section Shape of a Nonmagnetic Electrically Conducting Rod on the Parameters of an Eddy-Current Transducer with a Uniform Field – A. S. Popov and L. I. Trakhtenberg ..... 538 94
The Type NChG Instrument for Measuring the Hardness of Steel Crankshaft Forgings – N. N. Zatsepin, N. O. Gusak, A. V. Chernyshev, N. A. Potapova, V. I. Zyabkin, and R. G. Shevchenko ..... 544 102
A Unit for Inspecting the Weld Joint of Furnace-Welded Pipe at 1000°C and Higher – E. V. Grekhov and R. I. Denisov ..... 548 107
Characteristics of Magnetic Recording during the Magnetographic Defectoscopy of Welds – V. S. Kozlov and A. M. Gordon ..... 554 114

BRIEF COMMUNICATIONS
A Coercivity Meter with a Portable Display System – G. V. Bida and M. N. Mikheev ..... 560 121
The OD-10É Boroscope – V. A. Strokov, A. A. Ketkovich, and A. B. Upadyshev ..... 562 123
Temperature Dependence of Acoustic Emission – V. E. Vainberg ..... 564 124
Test Specimen with Varying Thickness for Ultrasonic Inspection – F. N. Pyshchev and E. B. Petrovskii ..... 567 126
Electromagnetic Control of Electrically Conducting Spherical Specimens – V. V. Panasyuk, B. I. Kolodii, and A. A. Orlovskii ..... 569 129
Anode-Potential Determination of Tempering Quality for High-Speed Steel – I. K. Kupalova, É. T. Shapovalov, and G. O. Zektser ..... 571 131
The ZID-1 Acoustic Flaw Detector – V. V. Lapin, Yu. V. Popov, and Yu. P. Shchurin ..... 573 132
Spectral Density Measurement for Eddy-Current Spatial Harmonics – A. A. Fomin ..... 575 134
Standardization in Ultrasonic Quality Control on Metals – N. N. Timoshenko and V. F. Zmitruk ..... 577 136
The BUS-1 Scan-Control Unit – V. A. Pilui ..... 579 137
The MIP-10 in Thickness Monitoring for Thin Zinc and Chromium Plating – Yu. P. Bashkirov and É. P. Zinchenko ..... 580 139
Effects of Welded-Joint Shape Fluctuations on Errors in Radiographic Testing – V. I. Gorbunov, G. E. Butakova, and A. K. Temnik ..... 582 141

INFORMATION
The Higher-Harmonic Method in Practical Quality Control – N. N. Zatsepin, M. A. Mel'gui, and N. O. Gusak ..... 585 144

Volume 12, Number 6 November-December, 1976

RADIATION METHODS
Backscattering of High-Energy Electrons in Thickness–Composition Monitoring for Surface Layers – V. N. Rudenko and V. B. Sorokin ..... 587 7
A $\gamma$-Ray Method of Radial-Clearance Determination for Engine Crankshafts – D. A. Boiko, G. I. Burov, V. L. Chakhlov, and M. M. Shtein ..... 591 12
Determination of Effective Absorption Coefficient for Soft X Rays – O. A. Akatkin ..... 594 15
An Absorption–Scattering Method for Finding the Honeycomb Blowhole Depth in a Continuously Cast Ingot of Rimming Steel – N. P. Valuev, V. K. Latyshev, and V. V. Lyndin ..... 597 19

Improving the Roentgenographic Method of Checking the Bushes of Crankshafts — L. I. Levenberg ..... 602 25

ELECTROMAGNETIC METHODS

Calculating the Effect of the Boundaries of a Product on the Field of a Cylindrical Defect — V. E. Shcherbinin and M. L. Shur ..... 606 30

Quality Control of the Case Hardening of Steel Products Made from Steel 45 — É. S. Achil'dieva, M. M. Valiev, Z. G. Kaganov, and S. T. Kusimov ..... 612 36

Design Relationships for Transducers in Amplitude–Phase Methods of Testing — V. A. Sandovskii and M. Ya. Khalikov ..... 615 39

A Metallic Cylinder in the Field of a Noncoaxial Coil — Yu. K. Fedosenko ..... 619 43

Instrument Type KAP with Feedthrough Transducer for Testing the Mechanical Properties of Steel Tubes by the Harmonic Method — N. N. Zatsepin, Yu. P. Myagkov, and B. D. Shaporov ..... 627 53

Accuracy Estimate in Measuring Defect Fields by Means of Hall Probes — B. I. Volkov ... 632 57

ULTRASONIC METHODS

Theory of the Operation of Piezoelectric Probes in Ultrasonic Defectoscopes. 2. Results of Studies Concerning the Electroacoustic Channel in an Echo-Type Defectoscope — I. I. Ermolov and V. I. Ryzhov-Nikonov ..... 638 64

Dissipation of Ultrasonic Oscillations at the Boundary of the Layers of a Bimetal Made by Explosive Welding. II — N. V. Vinogradov, Yu. B. Sviridov, and N. V. Khimchenko ..... 647 75

Feasibility of a Standardless Check for Impedance Flaw Detectors — Yu. V. Lange and S. G. Marinov ..... 651 80

Optical Excitation and Detection of Nanosecond Acoustic Pulses in Nondestructive Testing — A. N. Bondarenko, Yu. B. Drobot, and S. V. Kruglov. ..... 655 85

Experimental Study of the Equivalent Parameters of a Transducer in Resonance Thickness Measurements — V. S. Grebennik, V. I. Stefarov, and A. A. Bobrov ..... 658 88

Stress Calculations in Threaded Pieces from the Results of Ultrasonic Measurements — V. M. Bobrenko, L. V. Bulgakova, and I. A. Voskoboinik ..... 664 95

Two Methods for Increasing the Bandwidth of Piezoelectric Ceramic Transducers — E. V. Sinyakov, A. Yu. Keskyula, A. A. Belash, and T. M. Stolpakova ..... 668 100

BRIEF COMMUNICATIONS

The FZD-300 Ferromagnetic Probe Inspection Unit for Automatic Inspection of Welded Tubing — Yu. A. Bukasev, N. V. Vekshin, and V. Ya. Ivantsov ..... 673 105

The MD-10F Automated Ferromagnetic Probe Unit — L. A. Khvatov, Yu. S. Kalinin, E. Ya. Simonova, and E. N. Gerasimov ..... 675 107

The Relationship of Magnetic Properties and the Condition of the Carbon in Gray Pearlitic Cast Iron — R. E. Ershov and T. G. Ivanenko ..... 678 110

Experimental Investigation of the Field of Long Piezoelectric Transducers — V. A. Pilui and T. I. Reutova ..... 681 112

Linearization of the Output Signal of the Electromagnetic Probes of Thickness Gauges — N. L. Bondarenko, A. P. Stipura, V. I. Kozhevnikov, and N. I. Smirnov ..... 684 115

A Circuit for Selecting Signals in a Specified Phase Range — A. V. Lomovitskii, A. P. Ryabtsev, and L. S. Frumkis ..... 686 118

Increasing the Sensitivity of an Induction Inspection Unit with Spaced Windings over Their Magnetizing and Measuring Lengths — E. I. Okrushko and I. G. Leshchenko ..... 689 120

The Character of the Relationship of the Echo-Signal Amplitude to the Value of an Angle Type Reflector — V. S. Grebennik ..... 691 122

Ultrasonic Units for Automated Inspection of Tubing — M. I. Maizenberg and S. V. Veremeenko ..... 694 124

A Digital Method of Suppressing the Edge Effect in Electromagnetic Nondestructive Testing — Yu. Z. Bilik, I. A. Roitburd, and A. A. Astaf'ev ..... 696 125

A Nomogram for Determining the Damping Coefficient of Transverse Waves – V. E. Belyi and V. G Shcherbinskii ..... 697 127
An Investigation of Hidden Nonuniformities in Flat Dielectric Materials by Thermal Methods – N. A. Bekeshko, A. N. Leporskii, and V. G. Fedchishin ..... 699 128
Determining the Parameters of Internal Defects in Inspecting Dielectric Materials – N. A. Bekeshko and V. G. Fedchishin ..... 701 130
